

Pléiade AM is an independent asset manager specialised in mutual funds, with a “stock picking” approach.

PAM Cloud Revolution is a concentrated global equity fund invested in the transition of the economy towards the Cloud.

This is a unique configuration, focused on hyper-growth, which has allowed the emergence of new leaders, driven by a structural transformation of the economy.

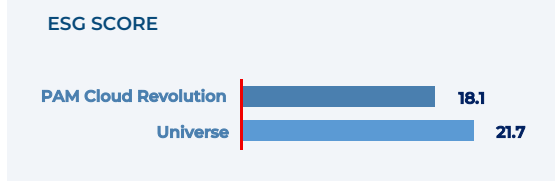

PAM Cloud Revolution is considered as a social contribution fund (Article 8) according to the SFDR regulation. The contribution is measured by a qualitative and a quantitative approach of the participation/contribution of companies in relation to the Sustainable Development Goals (SDG), such as innovation, job creation and quality of life at work. The fund is SRI compliance since 05/07/2022.
